

The iMasons Climate Accord is a coalition united on carbon reduction in digital infrastructure.

Our mandate is to achieve global carbon accounting of digital infrastructure to influence market-based decisions and drive the industry to achieve carbon neutrality.

Through the Movers program, the iMasons Climate Accord enables Members to showcase their sustainability initiatives and efforts while contributing valuable data and perspective to the conversation.

Participating Movers play an active role in the successful development of the iMasons Climate Accord Digital Infrastructure Maturity Model (DIMM).

## Drive Momentum with the Climate Accord Movers.

Raise your profile

Highlight your progress

Showcase your initiatives

Share your thought leadership

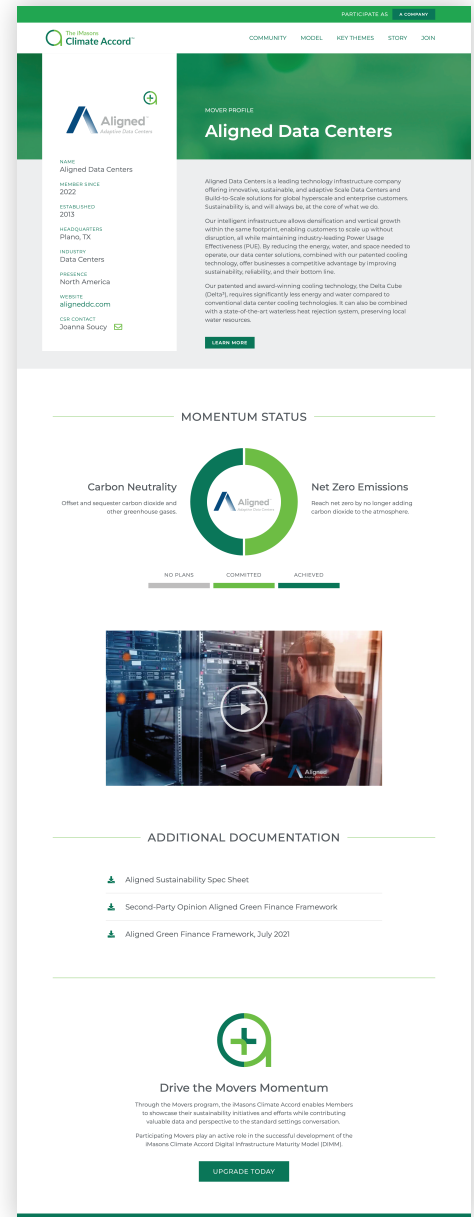

Enable data gathering

Guide standards setting

## Contribution

\$10K USD annual

The iMasons Climate Accord is a 501(c)(6) nonprofit. Your contribution helps fund the activities of the Climate Accord and is an investment in a better future as we strive for global carbon accounting of digital infrastructure and helping to drive the industry to achieve carbon neutrality.
